Skills

- **Languages**: C++, JavaScript, C, Python
- **Frameworks**: HTML and CSS, NodeJS, React
- **Tools/Platforms**: MySQL, Jupyter Notebook, Power BI, MS Excel
- **Soft Skills**: Problem-Solving Skills, Team Player, Adaptability

Project

- **Global Wellbeing Through Economic & Energy Trends:** April 2025
  - Analyzed global socio-economic indicators to uncover development patterns, comparing income groups, GDP, life expectancy, and internet access across 150+ countries.
  - Built ML classification models using Python, Pandas, NumPy, Seaborn, Scikit-learn, achieving ~85% accuracy in predicting country income categories based on socio-economic factors.
  - Delivered impactful visual insights through EDA and statistical charts, helping interpret correlations (e.g., GDP vs life expectancy at 0.78 correlation) and regional inequality patterns

- **AI-Powered Fitness Planner – Personalized Workout:** March 2025
  - Built an AI fitness assistant that generates customized workout and diet plans based on BMI, goals, and activity level, targeting a 25–40% improvement in workout consistency.
  - Implemented exercise recommendation and progress-tracking models using Python, TensorFlow, OpenCV, Scikit-learn, Flask, HTML, CSS.
  - Validated with 20 user testers, where 78% reported improved guidance and better tracking motivation through automated feedback and adaptive workout suggestions.

- **Loan Disbursement & Socio-Economic Impact Analysis – Excel Dashboard):** February 2025
  - Created an interactive dashboard to analyze loan distribution trends across sectors and demographics, identifying correlations between lending and socio-economic growth from 2019–2023.
  - Used Microsoft Excel (Pivot Tables, Slicers, Charts, Dashboards) for data modeling, segmentation, and comparative analysis across 50+ districts.
  - Delivered insights supporting policy and financial inclusion strategies, highlighting loan-to-income growth patterns with a measurable correlation strength of 0.72.

Summer Training

- **Lovely Professional University (LPU):** June 2025 -August 2025
  UI /UX Designer
  - Designed a student productivity app to improve study planning and time management by 30–40% using structured scheduling and reminders.
  - Built high-fidelity UI screens in Figma, improving navigation clarity by 25% based on user feedback.
  - Validated with 18 testers, where 82% reported increased focus and better task tracking through habit-tracking and progress visuals.

Certificates

- Think Design Prototype - Summer Training on Design Thinking & Figma by LPU — Jun 2025 – Jul 2025
- Java Programming by Iamneo — Jan 2025 – May 2025
- Object Oriented Programming by Iamneo — Aug 2024 – Dec 2024

Education

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology - Computer Science and Engineering: ***CGPA: 7.3*** — *Since August 2023*
- **Kendriya Vidalaya No.3 AFS Makarpura , Vadodara** — Makarpura, Vadodara
  Intermediate; ***Percentage: 84%*** — *April 2022 - March 2023*
- **Kendriya Vidalaya AFS Begumpet , Hyderabad** — Begumpet, Hyderabad
  Matriculation; ***Percentage: 89%*** — *April 2020 - March 2021*
